

As of May 22, 2023 – From 1-Jan-2020, 88877 Australian Individuals have taken the trouble, taken the time and feel sufficiently motivated or harmed by a medical condition to let the TGA know that they think something went wrong with these mRNA vaccines and harm has been done.

None of these people knew that prior to themselves, their loved one, their friend or their patient taking these provisionally approved “vaccines” that the more accurate description of these vaccines would be:

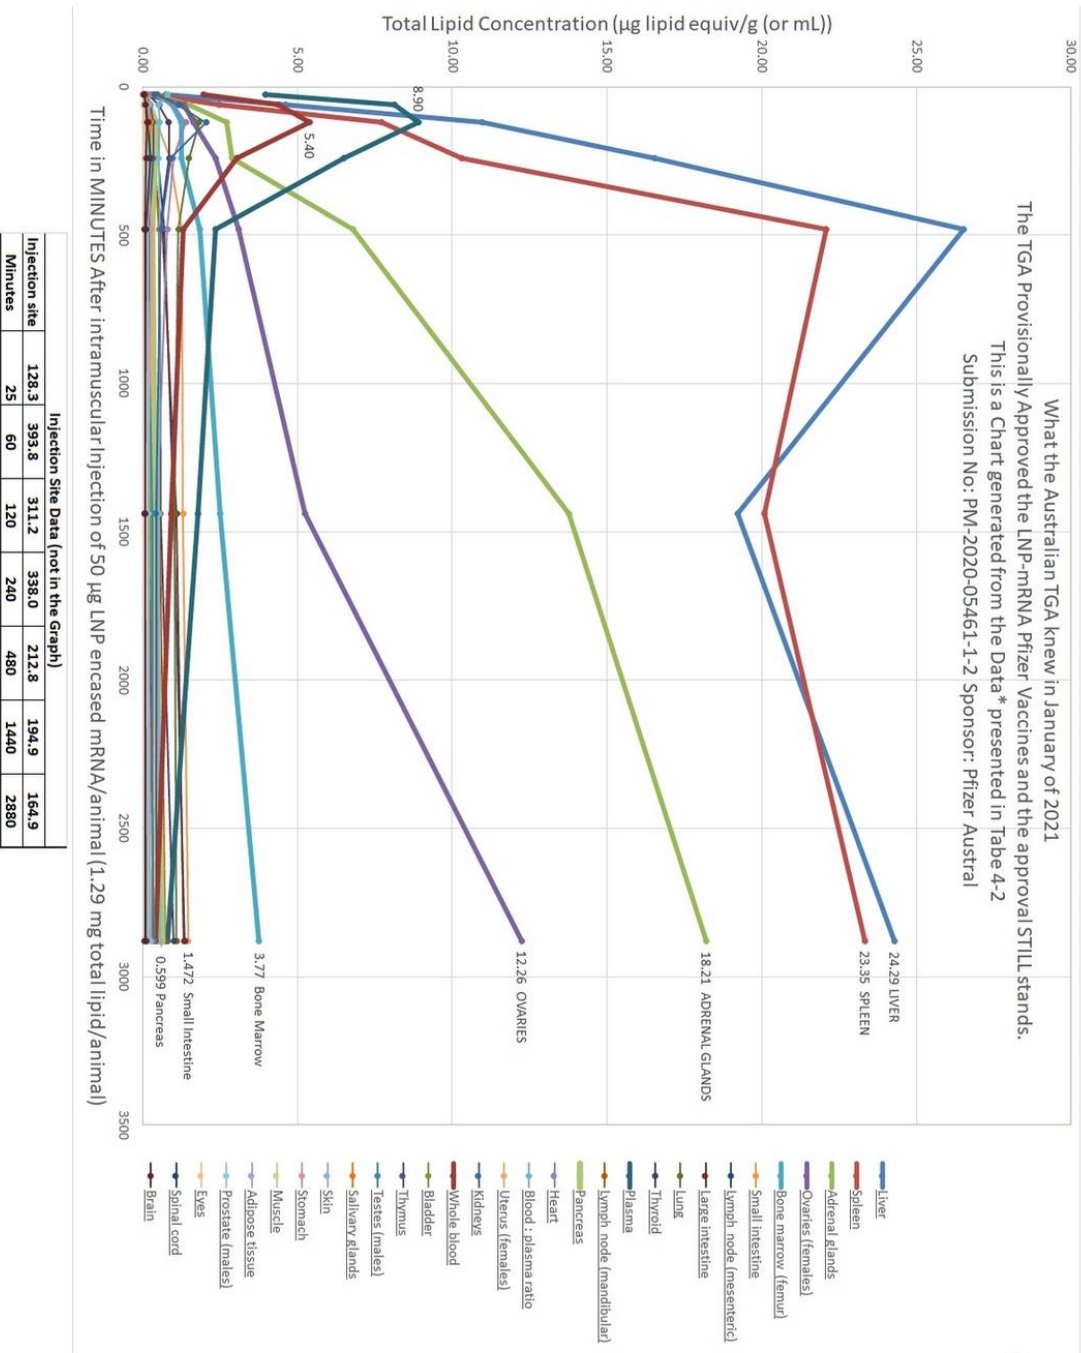

Lipid Nano Particle SYNTHETIC messenger RNA Genetic Instruction Vaccines

And NONE of them knew that the Injections they consented to or were coerced to take through social pressure not to spread a disease, or through work pressure to keep their job, or through emotional pressure to visit a loved one, or through medical pressure to obtain medical treatment, or through lifestyle and business pressures to travel or through educational pressure to attend a school event, or through medical fear where other preventative treatment options were banned... None of them knew that this course of TGA approved Injection was likely to alter the cell functions of their:

Brain cells
Eyes cells
Spinal cord cells
Prostate (males) cells
Adipose tissue cells
Muscle cells
Stomach cells
Skin cells
Salivary glands cells
Testes (males) cells
Thymus cells
Bladder cells
Kidneys cells
Whole blood cells
Uterus (females) cells
Blood: plasma ratio cells
Heart cells
Pancreas cells
Bone (femur) cells
Pituitary gland cells
Lymph node (mandibular) cells
Plasma cells
Thyroid cells
Lung cells
Large intestine cells
Lymph node (mesenteric) cells
Small intestine cells
Bone marrow (femur) cells
Ovaries (females) cells
Adrenal glands cells
Spleen cells
Liver cells

And none of them knew that the TGA were aware that it was likely to happen.....

And none of them knew that the TGA were told that these “Vaccines” may neither stop infection or prevent the spread of Covid19. And all of them now know that theses “Vaccines” neither stop infection or prevent the spread of Covid19 and that the TGA continues to allow them to be sold and promoted.
